- Demonstrate value for money.
- Projects that will inspire, communicate and share results.
- Proposals that align with local, state and national conservation priorities, including Landscape Board plans.
- Quotes for all proposed works.
- Projects that focus on climate resilience, adaptation and mitigation.
- Projects that achieve high impact conservation benefits.
- Demonstrate long-term benefit.

Can you explain how your project demonstrates these elements? *

Word count:

Must be no more than 500 words.

If you would like to talk to an Outreach Officer regarding your project, please email us at rca@naturefoundation.org.au or call us on 0436 431 660.

Map of Project Area

You will be required to attach a map of your project site, clearly identifying all properties, Heritage Agreements and sites of project activities.

Include fencelines (current and proposed), pest control points, photo points and all sites of project activities for which grant funds are being applied for.

Attachments can be made at the end of the application form, in the Supporting Material section.

Project Activities

Which of the following descriptions best fits your project? You may select more than one. *

- Management and/or action planning implementation.
- Effective control of weeds, feral animals or over abundant native species.
- Management of grazing impacts.
- Repair of damaged areas i.e. sites previously used for dumping, sites being trespassed.
- Internal property fencing to exclude stock from or reduce grazing pressure on proposed or current Heritage Agreement area.
- Internal property fencing to prohibit vehicle or pedestrian access to sites, including but not limited to visitor access for tourism purposes.
- Mapping of native plants or native vegetation communities.
- Native animal survey (permits needed).

- Habitat creation, including for threatened or declining species.
- Improving water quality and quantity including decommissioning water points.
- Revegetation with provenance seed.
- Improving fire management for conservation purposes.
- Trials of innovative conservation management techniques.
- Ecologically outcome-based burning.
- Climate change resilience, adaptation and mitigation

At least 1 choice must be selected.

Describe how your project will be undertaken and the methods you will use.

Provide as much detail as possible as this will be a key area for assessment. For example, for weed control provide specific species names and detail the control method (chemical and application rate), for feral animal control detail the specific species and any machinery and/or chemical control methods, for revegetation estimate the area to be direct seeded or number of tubestock to be planted and provide specific species names.

For projects that involve boundary fencing, ensure that you provide appropriate justification for this request.

Use the activity descriptions associated with the list above.
